

Client Proposal – E-commerce Frontend Development

This proposal outlines the frontend development approach for a modern, secure, high-performance e-commerce website using React.js.

Technology Stack

- React.js with Next.js
- Tailwind CSS for styling
- Framer Motion for animations
- Lottie for lightweight animations
- Vercel for deployment

Key Features

- Fast page loading and SEO-friendly structure
- Smooth UI/UX animations
- Responsive design for all devices
- Secure frontend practices
- Scalable and maintainable codebase

Development Timeline

Phase	Duration
Planning & UI Setup	4 Days
Component Development	7 Days
Animations & Interactions	5 Days
Performance Optimization	3 Days
Testing & Deployment	3 Days

Delivery Time: 4–5 Weeks

This solution ensures high performance, strong visual appeal, and scalability, making it suitable for long-term business growth.
